

Description of the study programme: JFM CU DSP Master's Degree Public Health

Name of the higher education institution: Comenius University in Bratislava

Address of the higher education institution: Šafárikovo námestie 6, 814 99 Bratislava

Identification number of the higher education institution: 00397865

Name of the faculty: Jessenius Faculty of Medicine in Martin

Address of the faculty: Malá Hora 4A, 036 01 Martin

Institution body for approving the study programme: Accreditation Council of the Comenius University in Bratislava

Date of the study programme approval or the study programme modification: 30.10.2015

<https://www.portalys.sk/sk/morho/zobrazit/17708>

Date of the latest change in the study programme description: 11.4.2022

Reference to the results of the latest periodic review of the study programme by the institution:

<https://www.jfmed.uniba.sk/studium/akreditacia/>

Reference to the assessment report of the application for accreditation of the study programme under § 30 of Act no. 269/2018 Coll.:

1. Basic information about the study programme

- a) Name of the study program and its number according to the register of study programmes:
Public Health, 17710
- b) Degree of higher education and ISCED-F education degree code:
2nd degree, ISCED-F code 767
- c) Place(s) of delivery of the study programme:
Jessenius Faculty of Medicine CU, Regional Public Health Authority in Martin, University Hospital in Martin
- d) Name and number of the field of study in which higher education is obtained by completing the study programme, or a combination of two fields of study in which higher education is obtained by completing the study programme, ISCED-F codes of the field/fields.
43 – Public Health, ISCED-F code of the field of study: 0919
- e) Type of the study programme:
Master's Degree going on after achievement of the Bachelor Degree
- f) Awarded academic degree:
Master ("Mgr")
- g) Form of study:
Full-time study
- h) In the case of joint study programmes, cooperating institutions and the range of study obligations the student fulfils at each of the given institutions (§ 54a of the Act on Higher Education Institutions): It is not a joint study program
- i) Language or languages in which the study programme is delivered:
Slovak
- j) Standard length of the study expressed in academic years:
two years
- k) Capacity of the study programme (planned number of students), the actual number of applicants and students
Planned number of enrolled first-class students: 30
Actual number of applicants: 9
Average number of enrolled first-class students: 12
Overview on number of registered, present, accepted and enrolled applicants for Public Health study in the JFM CU in entrance process for academic year 2021/2022: registered: 9, present: 9, accepted: 9, enrolled: 9

2. Graduate profile and learning objectives

- a) The institution defines the learning objectives of the study programme such as student's abilities at the time of completion of the programme and the main learning outcomes.
Graduates of this study program are qualified health professionals with wide expert profile prepared to operate independently expert activities in areas of public health, primary prevention, protection, promotion and strengthening of human health, in emergent situation, in management of healthcare facilities, regional public health authorities, insurance companies, state administration and pharmaceutical companies. Public Health graduates have got theoretical knowledge and practical skills needed in works in public and private sectors in areas of development, health promotion and protection, in planning of activities with health impact and in healthcare administrative.
Link to graduate profile: [Graduate profile](#)
- b) The institution indicates the professions for which the graduate is prepared at the time of completion and the potential of the study programme from the point of view of graduate's employability.
Graduates of the 2nd degree Public Health Study Program assert themselves as health professionals in all branches in Regional Public Health Authorities, hospitals, facilities beyond healthcare sector in sections of health protection, living and workplace environment.
Employment possibilities:
 1. Regional Public Health Authorities
 2. Health counselling centres (healthy lifestyle promotion, vaccination promotion)
 3. Health services associated with workplace (Occupational Health Services)
 4. Hospitals – health protection of patients and hospital personnel
 5. Research institutes focused on frequently occurring non-communicable diseases, environment and health, communicable diseases, workplace environment and health
 6. State administration – sections related to health as well as environmental issues
 7. Self-government – issues related to health promotion and protection, environmental health effects, preventive programs
 8. Sections of crisis management (on all levels and in all departments)
 9. Non-governmental organizations - health promotion projects, intervention projects
 10. Work Inspectorates, Social Insurance, Health Insurance, pharmaceutical companies

The graduates are prepared to perform activities in accordance with principles and conception of the governmental health policy and to realize goals of health promotion programs and health-educational and intervention projects. The graduate gains motivation for further personal and professional growth via lifelong education, he/she is prepared to assert oneself both in practice and in research in public health, pharmacoepidemiology, health counselling as well as in intervention programs and projects.

- c) Relevant external stakeholders who have provided the statement or a favourable opinion on the compliance of the acquired qualification with the sector-specific requirements for the profession.

Statement of the Ministry of Health of the Slovak Republic on the proposal for the implementation of the study program general medicine within the regulated profession in the field of general medicine.

Link to Statement of the Ministry of Health: <https://www.jfmed.uniba.sk/studium/uchadzaci/studijne-programy/studijny-program-verejne-zdravotnictvo/dokumenty-k-akreditacii/>

3. Employability

- a) Evaluation of the study programme graduate's employability.

Pursuant to Section 68 of the Act on Higher Education Institutions (131/2002), JFM CU issues documents on the completion of a study program. Evidence of the necessary qualifications for the exercise of the profession and the acquisition of the relevant academic degree are a university diploma, a diploma supplement and a state examination certificate. Evidence of completion of studies is issued within 45 days of the proper completion of studies, usually at the graduation ceremony, unless the graduate agrees to the later issuance of documents no later than on the day of fulfilment of the last condition for graduation.

The study program Public Health at the JFM CU is implemented in accordance with the relevant provisions of Government Regulation 296/2010 on professional competence to perform the medical profession, the method of further education of medical staff, the system of specialized disciplines and the system of certified work activities.

Theoretical and practical knowledge of graduates gained during the study are based on principles of Public Health, Evidence Based Public Health (EBPH), Evidence Based Medicine (EBM), Evidence Based Practice (EBP) and make possible them topically employ the latest pieces of knowledge in their profession. EBPH, EBM and EBP make possible them to understand expert issues considering the latest pieces of knowledge and not just to master the principles. Each issue present different principle and approach based on scholar information.

The graduate of the study program is generally educated and is able to integrate theoretical knowledge on medical and public health disciplines with other biomedical and social sciences, to transform them into a holistic approach in the practice of the public health worker. The study program ensures high-quality employment of graduates at home and abroad.

Link to the overview of employment of graduates of the Ministry of Labour, Social Affairs and Family of the Slovak Republic - <https://www.uplatnenie.sk/>

- b) The successful graduates of the 2nd or 3rd degree of study programme Public Health include also:
PhDr. Monika Musilová – commissioned as deputy head of Epidemiology and Biostatistics Department at the Regional Public Health Authority in Banská Bystrica
Mgr. Dáša Uličná – Ministry of Health of the Slovak Republic
- c) Evaluation of the study programme quality by employers (feedback).
Employers regularly participate in graduate evaluations. At the same time, their representatives participate in the preparation and modification of the curriculum of the study program within the Council of the Study Program.
Link to feedback of employers: <https://www.jfmed.uniba.sk/studium/studenti/spaetna-vaezba-zamestnavatelov/>
Link to Council of the Study Program: <https://www.jfmed.uniba.sk/studium/uchadzaci/studijne-programy/studijny-program-verejne-zdravotnictvo/>

4. Structure and content of the study programme

- a) *The institution describes the rules for the design of study plans within the study programme.*

The study program considers the mission, but also the goals set by the Jessenius Faculty of Medicine Comenius University (JFM CU) in the field of science and research (from page 9 in the Long-term plan of the JFM CU) and in the field of education (from page 5 in the long-term plan of the JFM CU). The study program was created and innovated in the intentions of the development trends of this kind of programs in Europe and in the world, considering the attractiveness for high school students.

The study program was created in accordance with the needs of practice; therefore, one of the main aspects in the design of subjects was the aspect of applicability of knowledge and competencies in real practice.

In terms of strategic goals in the field of international activities (page 12 of the project), the program and its study plan were designed so that students can complete part of their studies abroad while studying this study program, in which the faculty has extensive experience and a wide network of partner universities with related study programs for the submitted study program.

In accordance with the Dublin descriptors and at the same time in accordance with the national qualification framework, the graduates of the SP will obtain the 7th level of qualification (SKKR 7) - <https://www.kvalifikacie.sk/katalog-skkr>.

Mission of the JFM CU: <https://www.jfmed.uniba.sk/fakulta/poslanie-a-historia/>

Long-term development plan of JFM CU in Martin for the years 2021–2027:

https://www.jfmed.uniba.sk/fileadmin/jlf/Dekanat/Sekretariat/Rozne/Dlhodoby_zamer_JLF_UK_2021-2027_finalna_verzia.pdf

The study plan is prepared in accordance with the procedures specified in the Internal Quality Assurance System of Higher Education of Comenius University in Bratislava (Internal Regulation of CU No. 23/2021) within the cooperation of the Study Program Council with all subject guarantors at respective departments and clinics.

Link to IR CU No. 23/2021 - <https://uniba.sk/uploads/media/Vp2021-23.pdf>

- b) *The institution compiles the recommended study plans for individual study paths.*

The recommended study plan was prepared and approved within the Study Program Council, while the guarantors of individual courses, employers and students also commented on it. The proposal is in accordance with Decree No. 614/2002 Coll. on the study credit system and Act No. 131/2002 Coll. on Higher Education Institutions and on Amendments to Certain Acts.

The recommended study plan keeps assigned workload expressed as number of hours of contact teaching together with all activities needed for preparation and completion of the courses. Number of credits for the individual courses were assigned to consider

demandingness of the course considering specific field of learned issues and ways of successful completing. The courses within the recommended study plan make possible to reach assigned outcomes of the education.

Link to Study plan: [Study plan](#)

c) *The study plan generally states:*

- *individual parts of the study programme (modules, courses, and other relevant school and extracurricular activities, if they contribute to the achievement of the required learning outcomes and allow to obtain credits) in the structure of compulsory, compulsory optional and optional courses,*

The study program is designed so that it consists of a range of compulsory courses and optional courses. Educational outcomes and related criteria and evaluation rules are designed to meet all educational goals of the study program and are stated in the Course Information Sheets. Each course is assigned a number of credits, which corresponds to the workload (approximately 26 hours of study and self-study - 1 credit). Some compulsory and elective courses are considered to be follow-up, i.e. their enrolment into the study plan requires prior successful completion of the prerequisite course (see the Study Regulations of JFM CU, IR JFM CU No. 13/2020)

Link to the recommended study plan and Course Information Sheets: [Study plan and Course Information Sheets](#)

Link to IR JFM CU No. 13/2020:

https://www.ifmed.uniba.sk/fileadmin/ijf/Dekanat/Sekretariat/Legislativa/Rok_2020/VP_2020_13.pdf

- *profile courses of the relevant study path (specialization) within the study programme,*

Compulsory courses of the study program assure that the students completing them gains knowledge or skills essential to successfully complete the study program. They present an essential part of thematic spheres of state exams and make available knowledge and skills important to achieve educational outcomes stated in the characteristics of professional profile of a graduate as well as his/her personal and professional profile. Profile courses are subjects/courses of the state exams. Questions for both practical and theoretical parts of the state exams are complex ones and make possible to verify skills and knowledge of all basic components of Public Health.

Link to the recommended study plan and Course Information Sheets: [Study plan and Course Information Sheets](#)

- *for each learning part/course the learning outcomes, related criteria and rules of their assessment so that the learning objectives of the study programme are met (they can be stated only in the Course information sheets, in the Learning outcomes section and in the Course completion requirements),*

Used educational activities (lecture, seminar, practical exercise, final thesis, state exam) for each educational part of the study plan/course appropriate to achieve educational outcomes are assigned in the recommended study plane. Educational outcomes and associated criteria and rules of evaluation are stated in the course information sheets of the compulsory and optional courses.

Link to the recommended study plan and Course Information Sheets: [Study plan and Course Information Sheets](#)

- *prerequisites, co-requisites and recommendations for the design of the study plan,*

In the study plan, prerequisite subjects are marked for individual courses, the completion of which is a condition for enrolling in a follow-up course.

Link to Study plan: [Study plan](#)

- *for each learning part of the study plan/course the applied educational activities (lecture, seminar, exercise, final work, project work, laboratory work, internship, excursion, field practice, professional practice, state exam, etc. or their combinations) suitable for achieving learning outcomes,*

The educational activities used are listed in the Study Plan and in the Course Information Sheets

Link to the recommended study plan and Course Information Sheets: [Study plan and Course Information Sheets](#)

- *methods by which the educational activity is delivered – present, distant, combined (in accordance with the Course information sheets),*

The methods by which the educational activity is carried out - full-time, distance, combined, syllabus of the course and the student's workload ("extent" for individual courses and educational activities separately) are listed in the Course Information Sheets. If necessary, the full-time method of conducting lectures is also possible in combination / hybrid, which allows the IT equipment of the Faculty and individual workplaces.

Link to the recommended study plan and Course Information Sheets: [Study plan and Course Information Sheets](#)

- *outline/syllabus of the course,*

Course outline and syllabi present a part of the Course Information Sheets, and are also published on the websites of individual departments.

Link to the Course Information Sheets: [Course Information Sheets](#)

Link to websites of the departments: <https://www.ifmed.uniba.sk/pracoviska/>

- *student workload ("extent" of individual courses and educational activities separately,*

- *The student's workload (extent of teaching) for individual subjects and semesters is specified in the recommended study plan and is adjusted so that the workload is as balanced as possible throughout the study.*

Link to Study plan: [Study plan](#)

- *credits allocated to each part based on the learning outcomes achieved and the workload involved,*

Credits are allocated to individual subjects based on the achieved learning outcomes and related workload within the study and self-study (approximately 26 hours per credit) and are part of the recommended study plan.

Link to Study plan: [Study plan](#)

- *the person responsible for the course (or a partner organization/person) with an indication of the contact details,*

The persons responsible for the course are listed in the recommended study plan.

Link to Study plan: [Study plan](#)

- *course teachers (or participating partner organizations/persons) (may also be mentioned in Course information sheets),*
Course teachers are listed in the Course Information Sheets as well as in the list of teachers with contacts.
Link to websites of the departments: <https://www.ifmed.uniba.sk/pracoviska/>
Link to the recommended study plan and Course Information Sheets: [Study plan and Course Information Sheets](#)

- *places where the courses are taught (if the study programme is delivered at several workplaces).*
The courses are held at the workplaces of the course guarantors. Respective information is stated on websites of the departments in syllabus of the course. The place of the teaching (the Faculty department, seminar/lecture room) is stated in time schedule for the given semester and academic year.
Link to websites of the departments: <https://www.ifmed.uniba.sk/pracoviska/>
Link to the recommended study plan and Course Information Sheets: [Study plan and Course Information Sheets](#)
Link to time schedule for the given semester: <https://www.ifmed.uniba.sk/studium/studenti/organizacia-studia-v-akademickom-roku/rozvrhy/>

- d) *The institution states the number of credits, the achievement of which is a condition for proper completion of studies and other requirements that the student must meet within the study programme and for its proper completion, including the requirements for state examinations, rules for re-study and rules for the extension, interruption of study.*
The minimum amount of credits for the entire study that the student must obtain for its successful completion is 120 credits. The amount of credits for Master's Degree state exam is 10 credits and for the Defence of Diploma Thesis is 5 credits. The courses of the state exams are part of the study plan and the credits obtained for these subjects are added to the student only after their successful completion.
Detailed conditions of state examinations, regular completion of studies, extension of studies, re-enrolment of subjects, interruption of studies and other conditions that the student must meet during the study program and for its proper completion are specified in the JFM CU Study Regulations (Internal Regulations JFM CU No. 13/2020):
https://www.ifmed.uniba.sk/fileadmin/ilf/Dekanat/Sekretariat/Legislativa/Rok_2020/VP_2020_13.pdf

- e) *For individual study plans, the institution states the requirements for completing the individual parts of the study programme and the student's progress within the study programme in the given structure:*
 - *number of credits for compulsory courses required for proper completion of study/completion of a part of studies: 92,*
 - *number of credits for professional practice required for the proper completion of study/completion of a part of studies: 5,*
 - *number of credits for final diploma thesis and its defence required for the proper completion of study: 23*
Link to Study plan: [Study plan](#)

- f) *The institution describes the rules for verification of learning outcomes, students' assessment and the possibilities of appealing against the assessment.*
The individual methods of evaluation of study results are designed to clearly determine and verify the required conditions for passing the course. The student is acquainted in time with the dates of regular and corrective possibilities of continuous assessment and with regular and corrective dates of exams. Every student has the right to be informed about the evaluation of all parts of the continuous assessment and examination. The student has the right not to accept the evaluation on the exam date and to register for the relevant corrective exam date. If a student has been assessed with the FX grade at the regular exam date or has not applied for one of the regular exam dates in time, he / she is entitled to two corrective exam dates. The student has the right to request the completion of any exam date by a "commission form" of examination. The Dean, on the proposal of the person with the main responsibility for the implementation, development and quality assurance of the study program, appoints at least a three-member examination commission; the chairman of the examination commission is usually the teacher of the given subject. The commission form of the examination can take place without the student's request, if requested by the subject teacher. Details are regulated by the Study Regulations of the JFM CU in Art. 11 Evaluation of study results (IR JFM CU No. 13/2020).
The student may apply for review of the decision on expulsion from the study. The Dean may grant the request or forward the request within 15 days from the date of its delivery to the Rector, together with the attached file material and a written opinion on the applicant's statements and objections. At the written request of the student, the Dean may grant an exemption from the terms of the faculty study schedule, from the control stages of the study, from the maximum length of study interruption, allow the study to be interrupted if the student does not meet the conditions of the control phase or waive. Details are regulated by the Study Regulations of the JFM CU (IR JFM CU No. 13/2020)
Link to the Study Regulations of the JFM CU (IR JFM CU No. 13/2020):
https://www.ifmed.uniba.sk/fileadmin/ilf/Dekanat/Sekretariat/Legislativa/Rok_2020/VP_2020_13.pdf

- g) *Conditions for recognition of studies or a part of studies.*
Conditions for control phases of the study, recognition of courses, recognition of courses within students' academic mobility, condition for performing of state exams and topics of the state exam are set out in the University and Faculty study regulations.
Link to the Study Regulations of the JFM CU (IR JFM CU No. 13/2020):
https://www.ifmed.uniba.sk/fileadmin/ilf/Dekanat/Sekretariat/Legislativa/Rok_2020/VP_2020_13.pdf

- h) *The institution states the topics of final theses of the study programme (or a link to the list).*
The topics of diploma theses are published annually in the Academic Information System according to individual workplaces.
Link to the Academic Information System: <https://ais2.uniba.sk/ais/start.do>

- i) *The institution describes or refers to:*
 - *rules for the assignment, processing, opposition, defence and evaluation of final theses in the study programme,*
These rules are specified in Art. 14 of the Study Regulations of JFM CU (IR JFM CU No. 13/2020). Approval of diploma theses and supervisors on the basis of conditions specified in IR CU No. 23/2021 Internal quality assurance system of higher education at Comenius University in Bratislava in the fifth part (Articles 49 to 53).
Link to the IR JFM CU No. 13/2020:

Link to the IR CU No. 23/2021: <https://uniba.sk/uploads/media/Vp2021-23.pdf>

- *opportunities and procedures for participation in student mobility*,
These options and procedures are published on the JFM CU and Comenius University (CU) websites in the International Relations section.
Link to the JFM CU website: <https://www.ifmed.uniba.sk/fakulta/medzinarodne-vztahy/>
Link to the CU website: <https://uniba.sk/medzinarodne-vztahy/>

 - *rules for adherence to academic ethics and rules for drawing consequences*,
These procedures are the responsibility of the Disciplinary Commissions for students of the Faculty and University, as well as the Ethics Council of the Comenius University. Ethical principles in educational and scientific and research activities as well as the consequences of their violation are defined in the eighth part of the internal regulation No. 23/2021 (Internal Quality Assurance System of Higher Education of the Comenius University in Bratislava) - Code of Ethics and Rules of Creative Activity of Comenius University).

 - *procedures applicable to students with special needs*,
The Comenius University in Bratislava has a Support Centre for Students with Special Needs. The centre provides information, counselling, support services and educational activities for applicants and students with special needs, teachers and the general public. At the faculty level, there is a coordinator for the support of students with special needs and assesses the possibilities / limitations / and degree of risk of the study of the relevant study program for students with special needs. It proposes specific appropriate adjustments and support services for students with special needs and performs counselling and mediation activities. Participates in the creation of a special system of hybrid education and support for students with special needs.
In addition, there is a specially designated person at JFM CU who is responsible for addressing the requirements and needs of JFM CU applicants and students with specific needs. An applicant with special needs, who requires appropriate adjustments and support services during the entrance examination, sends, together with the application for the study, a request to adapt the form of the entrance examination with a specification of the required adjustments and support services, accompanied by the relevant professional documentation.
Coordinator for working with applicants and students with special needs:
Mgr. Ľubica Bánovčinová, PhD. phone: 043/2633 429 e-mail: lubica.banovcinova@uniba.sk
The competencies of study counsellors are defined in the fourth section (Study counsellors and coordinators for students with special needs, Art. 41) IR CU No. 23/2021 (Internal quality assurance system of higher education at the Comenius University in Bratislava).

- e) List of the supervisors of final theses with the assignment to topics (indicating the contact details).
 The supervisors of the final theses are determined and the topics of the final theses are approved by the guarantor of the relevant profile course on the basis of the decision of the Study Program Council. The condition for being a tutor is the completion of a 3rd degree university study. Topics of final theses with names of supervisors are updated and announced on regular base in the Academic Information System (AIS).
 Baška Tibor, prof., MUDr., PhD., tibor.baska@uniba.sk : Analysis of alcohol control legislation in relation to respective epidemiological indicators in selected countries; Electronic cigarettes use in medical students; Programs of prevention of obesity in children and adolescents in selected European countries
 Čecho Róbert, Mgr., PhD., robert.cecho@uniba.sk : Psychosocial risks in health care sector;
 Hudečková Henrieta, prof., MUDr., PhD., MPH, henrieta.hudeckova@uniba.sk : Trend of salmonellosis occurrence in Slovakia;
 Jakušová Viera, doc., Ing., PhD., MPH, viera.jakusova@uniba.sk : Measurement of noise in school properties in different localities and its subjective perception;

 Švihrová Viera, prof., MUDr., CSc., viera.svihrova@uniba.sk : Epidemiology of myocardial infarction in Slovakia between 2008 and 2018; Knowledgeability of parents on sight disorders in school-aged children; The mental health quality of health sciences students
 Tatarková Mária, Mgr. PhD., maria.tatarkova@uniba.sk : Public health importance of environmental contamination by selected heavy metals in Europe
 Tkáčová Marta, PhDr., PhD., marta.tkacova@uniba.sk : Spa History in Slovakia from the View of the Public Health;
 Ulbrichtová Romana, Mgr., PhD., romana.ulbrichtova@uniba.sk : Possibilities of evaluation of noise exposure in employees in a workplace
 Záborský Tibor, MUDr., PhD., MPH, tibor.zaborsky@uniba.sk : Evaluation of selected occupational factors in manufacturing plants
 Zibolenová Jana, Mgr., PhD., jana.zibolenova@uniba.sk : Demographic characteristics of birth rates in the Slovak Republic
- f) Reference to the research/art/teacher profiles of the supervisors of final theses.
 Link to RAPT (research / art / teacher profile): [RAPT](#)
- g) Student representatives representing the interests of students of the study programme (name and contact details).
 Martin Beňadik (benadik12@uniba.sk; personal meeting upon e-mail request), member of the Study Program Council for Public Health
- h) Study advisor of the study programme (indicating contact details and information on the access to counselling and on the schedule of consultations).
 The study advisors of the study program are appointed for individual study years from the teachers of courses in the respective years of study. Students register for individual consultations in advance electronically or by telephone. The competencies of study advisers are defined in the fourth section (Study advisors and coordinators for students with special needs, Art. 39-40) IR CU No. 23/2021 (Internal quality assurance system of higher education Comenius University in Bratislava). In addition, in Art. 41 are defined competencies of the student study counsellor, which is performed by standard representatives of individual groups of students based on the study year, or student representatives in the student part of the Academic Senate of JFM CU.
 For the 1st year: prof. MUDr. Viera Švihrová, CSc. (viera.svihrova@uniba.sk; personal meeting upon e-mail request)
 For the 2nd year: doc. Ing. Viera Jakušová, PhD., MPH (viera.jakusova@uniba.sk; personal meeting upon e-mail request)
<https://www.jfmed.uniba.sk/pracoviska/vedecko-pedagogicke-pracoviska/predklinicke-ustavy/uvzd/zamestnanci/>
 Link to IR CU No. 23/2021: <https://uniba.sk/uploads/media/Vp2021-23.pdf>
- i) Other supporting staff of the study programme – assigned study officer, career counsellor, administration, accommodation department, etc. (with contact details).
 Administrative agenda and basic counselling for students considering their study and social issues are provided by workers of the Study Department. Each study program and class has assigned a study administrator. Students can contact the Department within operating hours announced on the website or during standard working hours via phone, or anytime via e-mail. Communication through assigned university e-mail boxes is preferred.
 Head of the Study Department: Ing. Eva Tišiarová phone: 043/2633 121, e-mail: eva.tisliarova@uniba.sk

Study administrators:

Mgr. Katarína Nezdobová, phone: 043/2633 122, e-mail: katarina.nezdozbova@uniba.sk

- applications and admission process for study program General Medicine both in Slovak and English, 1st and 2nd year of study program General Medicine both in Slovak and English, local administrator of AIS2, University of the Third Age

Katarína Kuzmová, phone: 043/2633 120, e-mail: katarina.kuzmova@uniba.sk

- 4th, 5th and 6th year of study program General Medicine in Slovak, social issues and scholarships of students in all study programs

Bc. Jana Lettrichová, phone: 043/2633 124, e-mail: jana.lettrichova@uniba.sk

- non-medical study programs (Nursing, Midwifery, Public Health), rigorous procedure, archive of alumni of non-medical study programs

Janka Sýkorová, phone: 043/2633 197, e-mail: janka.sykorova@uniba.sk

- 1st to 6th year of study program Dentistry, verification of documents issued by the JFM CU for foreign institutions, Foreign Police, responsible for English version of the website of the Study Department

Mgr. Eva Štermenská, phone: 043/2633 223, e-mail: eva.stermenska@uniba.sk

- applications and admission process for study program General Medicine in English, study agenda of students of the 1st year in the English program

Mgr. Jana Simonidesová, phone: 043/2633 123, e-mail: jana.simonidesova@uniba.sk

-3rd year of study program General Medicine in Slovak, 2nd and 3rd year of study program General Medicine in English, archive of alumni of study program General Medicine in Slovak

Bc. Katarína Dullová, phone: 043/2633 110, e-mail: katarina.dullova@uniba.sk

- 4th, 5th and 6th year of study program General Medicine in English, archive of alumni of study program General Medicine in English

More information on the Study Department can be found at: [Kontakt \(uniba.sk\)](#)

Accommodation department and canteen

The JFM CU university dormitory is a purpose-built facility of the Comenius University in Bratislava at the Jessenius Faculty of Medicine in Martin. The allocation of accommodation in accommodation facilities is regulated by the Directive of the Rector of Comenius University in Bratislava. Current and newly admitted CU students submit electronic applications for accommodation through E-accommodation.

Contacts for accommodation department and dining room:

Director of university dormitory: PhDr. Jana Seryjová, phone: (043) 2633501, e-mail: jana.seryjova@uniba.sk

Deputy Director, Financial and Economic Department: Ing. Paula Plešková, phone: (043) 2633502, e-mail: paula.pleskova@uniba.sk

Accommodation department: Andrea Šimková, phone: (043) 2633503, e-mail: andrea.simkova@uniba.sk

Health and safety technician: Jaroslava Stolaríková, phone: (043) 2633513, e-mail: jaroslava.stolarikova@uniba.sk

Head of the student canteen: Babeta Kašovičová, phone: (043) 2633511, e-mail: babeta.kasovicova@uniba.sk

More information on the university dormitory and canteen can be found at: <https://www.ifmed.uniba.sk/pracoviska/ucelove-pracoviska/vysokoskolsky-internat-a-jedalen/>

8. Spatial, material, and technical provision of the study programme and support

- a) List and characteristics of the study programme classrooms and their technical equipment with the assignment to learning outcomes and courses (laboratories, design and art studios, studios, workshops, interpreting booths, clinics, priest seminaries, science and technology parks, technology incubators, school enterprises, practice centers, training schools, classroom-training facilities, sports halls, swimming pools, sports grounds).

All JFM CU facilities are well-arranged for high-quality teaching-learning process as well as for conducting scientific research activities. A significant stimulus for the modernization of the existing JFM CU infrastructure was the successful implementation of projects co-financed by the Structural Funds. All theoretical (basic sciences), preclinical, and clinical workplaces have modern instrumentation, technical and material equipment. The accessible infrastructure makes it possible to obtain original results and provide modern educational, as well as scientific research activities for students and academic staff. Well-equipped JFM CU infrastructure include, among others, modern communication technologies, audiovisual devices, and didactic equipment for learning. The JFM CU continues to develop IT technology by ensuring the widespread availability of the Internet for students and building a system of videoconferencing with the possibility of demonstrating medical interventions, including real-time surgery. In addition, specialized classrooms are furnished with education materials and accessories.

Educational and scientific research activities are carried out in the following medical facilities: Malá Hora 4, Malá Hora 4B, Malá Hora 4C, Malá Hora 4D and Malá Hora 5, Biomedical Centre Martin (BioMed Martin) and Facilities for non-medical study programs (Midwifery, Public Health, and Nursing). Clinical subjects and practice are dominantly provided in the University Hospital Martin. The majority of the Faculty facilities are located within the area of Malá Hora. This integral complex of facilities provide wide spectrum of opportunities for both educational a research activities and interdisciplinary cooperation.

Educational activities and scientific sessions at JFMED take place at following locations: two lecture halls nearby the student dormitory, lecture hall at Mala Hora 4, lecture hall at Mala Hora 5, lecture hall in the Education Center in Mala Hora 4B, and two lecture halls at the University Martin Hospital. Since 2010, JFMED also has its own modern hall with a capacity of 476 seats. In addition, modern interactive education is provided and supported by Academic Information Center (since 2012) which also includes the Simulation Learning Center (currently called the Medical Education Support Center). This workplace is currently significantly expanded and strengthens its equipment, as well as staff capacity to ensure the teaching and training of skills. More information can be found at: <https://www.ifmed.uniba.sk/en/departments/special-purpose-facilities/medical-education-support-center/>.

In addition to abovementioned major education sites, every department use their own teaching rooms with relevant technical and multimedia support (Wifi connectivity, Interactive screens and whiteboards, personal computers, etc).

In addition to educational activities, the faculty is also intensively involved in the development of scientific research activities, including the activities of students. Facilities which are directly involved in research include Biomedical Centre Martin, the Center for Translational Medicine, the Center for Experimental and Clinical Respiriology and the Center of Excellence for Perinatalogical Research. More information can be found at: <https://www.ifmed.uniba.sk/en/departments/scientific-research-workplaces-and-centers>. Project activities are coordinated by the Centre for Science, Research and Development Support (so-called CEVED). More information can be found at: <https://www.ifmed.uniba.sk/pracoviska/ucelove-pracoviska/centrum-pre-podporu-vedy-vyskumu-a-vyvoja>

Overview of lecture halls, classrooms and seminar rooms:

Address	Type of educational infrastructure	Capacity	Department
---------	------------------------------------	----------	------------

Novomeského 7	Lecture hall A Lecture hall B	172 135	All JFM CU departments
Malá Hora 4B, 4C a 4D	Lecture hall Practical classrooms Labs Libraries Specialized classrooms	140	Pharmacology Microbiology and immunology Pathophysiology Public Health Medical biochemistry Physiology Molecular biology
Malá Hora 4	Lecture hall Autopsy room Labs Operating room Libraries	75	Anatomy Medical biophysics Medical biology Histology and Embryology
Malá Hora 5	Great lecture hall Small lecture hall 9 x Special classrooms 2 x Consulting rooms Libraries Study rooms Rooms designed for learning <i>foreign languages</i>	104 48 232 50	Nursing Midwifery Foreign languages
Kollárova 2 st. - Hospital	Great lecture hall Small lecture hall Seminar rooms Libraries	162 70	All JFM CU clinical departments
Novomeského 7A	Study room Simulation center Digital classrooms	122 68	All JFM CU departments
Malá Hora 4A	Aula Magna (main hall)	476	All JFM CU departments

List of departments of the JFM CU equipped with unique laboratory technology

Department of Public Health	Atomic absorption spectrophotometer Microwave digestion system
Department of Medical Biochemistry	Liquid chromatography HPLC for proteomics DNA scanner Fast Real-Time PCR system Ultracentrifuge Nano-liquid chromatography
Department of Pathophysiology	Extracellular recording Patch clamp recording Calcium imaging
Department of Physiology	Hematology analyzer Surfactometer Nitric oxide analyzer
Department of Pharmacology	Combined spectro-fluoro-luminometer
Clinic of Radiology	Digital skiagraphy Various digital radiographic systems
Clinic of Gynecology and Obstetric	Various modern obstetric imaging
Clinic of Children and Adolescents	Modern ultrasound systems Confocal microscopy Modern endoscopic systems
Department of Pathological Anatomy	Biopsy scanner Fluorescence microscopy
Clinic of Urology	Modern ultrasound systems Modern endoscopic systems
Department of Medical Biology	Cell sorter Laser Microdissection
Department of Medical Biophysics	Micromanipulator KOPF INTRUM.2662
Clinic of Otorhinolaryngology and Head and Neck Surgery	Modern endoscopic systems Modern ultrasound systems
Department of Molecular Biology and Genomics	PCR systems Bioanalyzer systems Next-generation sequencing Comparative genomic hybridization Pyrosequencing
Clinic of Ophthalmology	Retinal camera
Department of Clinical Biochemistry	DNA and RNA isolation and analysis
Department of Hematology and Transfusiology	Flow cytometry Aggregometry Electrophoresis Thromboelastography
Department of Histology and Embryology	Confocal microscopy
Clinic of Neonatology	Various modern intensive care devices
Clinic of Gastroenterological Internal Medicine	Modern endoscopic systems Modern ultrasound systems
Clinic of Pneumology and Phthisiology	Polysomnography
Clinic of Neurosurgery	3D ultrasound

Biomedical Centre Martin BioMed Martin	Nuclear magnetic resonance (NMR) spectroscopy
Medical Education Support Center	Laparoscopy simulation Ultrasound simulation High-fidelity patient simulation Intensive care and resuscitation simulation Simulation in obstetrics Simulation of basic medical procedures Pediatric patient simulation

b) Characteristics of the study programme information management (access to study literature according to Course information sheets, access to information databases and other information sources, information technologies, etc.).

Information delivery (library and information services) and access to study literature: The Academic Library and Audiovisual Center of the JFM CU is a scientific-information, bibliographic, coordination and counselling workplace. The library provides library-related service in all study programs. Through its activities, it provides support for studies and education at the faculty, as well as scientific research activities. It provides services in accordance with the Library and Lending Regulations of the Library. It also follows the methodological guidelines and instructions of the Academic Library of Comenius University (CU), the instructions and methodologies of the Centre for Scientific and Technical Information of the Slovak Republic, and internal regulations of the JFM CU dean. As part of the information provision of study fields, it provides students with library and information services in order to meet the educational, scientific-research, social and cultural needs of:

- Lending services - attendance and interlibrary services
- Access to the online catalogue - building and access to the comprehensive online catalogue of the CU. Access to the library collection is via the CU online catalogue and via the JFM CU library website: <http://alis.uniba.sk:8088/search/query?locale=en&theme=Katalog>
- Access to compulsory and recommended literature - compulsory and recommended literature is updated annually on the basis of documents from JFM CU teaching staff and information sheets of individual subjects: <https://www.jfmed.uniba.sk/pracoviska/informacne-pracoviska/akas/povinna-a-odporucana-studijna-literatura-202122/>
- Special services - search services from own library funds
- Purchase of a library fund (acquisition) - special attention is paid to supplementing the basic and recommended study literature. The active participation of users is also used and based on their proposals, the purchase of professional medical literature is carried out. The JFM CU fund consists of specialized medical literature for the study programs: general medicine, dentistry and non-medical study program. The fund consists of sets of scientific medical material (scientific journals, books, textbooks, etc.)
- Bibliographic registration and storage of PhD. and diploma theses - access to information
- Publication database - access to the online catalogue of publication activities: <http://alis.uniba.sk:9909/search/query?locale=en&theme=EPC>. Publishing activity is registered online through a nationwide database CREPČ2 (central register of publication evidence). The CREPČ2 database records bibliographic records such as publications and citations. The database allows independence from library formats, social rights and rules for users, as well as internal control in the creation of entities and records at all universities in Slovakia. Unification of records for one publication within the authors of the Slovak Republic, visibility of cooperation of university authors, mapping of scientific results of university staff and comparison of scientific disciplines at the national level: <https://app.crep.sk/?seo=CREP%C4%8C-H%C4%BEadanie&fn=AdvancedSearchChildQ1BH3D>

At present, the academic library provides access to the information provision of study programs on the basis of library and information processes, which are fully automated through the VIRTUA library information system and the CREPČ2 register.

Access to information databases and other information resources: The Academic Library provides access to licensed electronic information resources (EIR) which are made available within the NISPEZ project. Access to EIR is possible via computers connected to the JFM CU network or via remote access to CU information resources also from computers connected outside the CU network. Faculty library offers the services of a digital study room, which is equipped with computers with internet access, access to CU catalogues, and electronic information sources. Students have access to the study rooms daily and on weekends and public holidays from 7.00 am until 10.00 pm. To obtain EIR, JFM CU library provides access to the information databases listed at <https://uniba.sk/en/about/faculties-and-units/comenius-university-academic-library/external-electronic-information-resources>.

Academic Library and Audio-visual Center of JFM CU website: <https://www.jfmed.uniba.sk/en/departments/information-workplaces/kniznica/>

Information technologies at the JFM CU: JFM CU utilize for its activities information and communication technologies (ICT) focused on administrative tasks, operations, science and research, study, teaching support, testing, e-learning and video conferencing, web presentation, user support, digitization, printing, and survey forms processing. ICT also cover purchase and repair of hardware and software, operation, management and monitoring of computer networks, data centers, user terminals, access control systems, and security and camera systems. ICT is provided by the Department of information technology <https://www.jfmed.uniba.sk/en/departments/information-workplaces/department-of-information-technology>. Department of information technology cooperates with the Center for Information Technologies of the CU. The connection of the university with the faculties at the ICT level is ensured by the organizational structure of the technical and academic administrators of the Integrated Information and Communication System. For more detailed information please see: <https://uniba.sk/en/about/faculties-and-units/cit/>

Information systems at the JFM CU: Information systems are managed by the Ministry of Education, Science, Research and Sport of the Slovak Republic, Comenius University, and JFM CU. The most important parts of information system include:

- Financial informative system SAP/Sofia
- Academic information system AIS2 <https://moja.uniba.sk/?lang=en>
<https://ais2.uniba.sk/ais/portal/changeLocale.do?locale=EN>
- CMS Typo3 for the JFM CU website and other related issues <https://www.jfmed.uniba.sk/en/>
- Cloud system <https://owncloud.jfmed.uniba.sk/owncloud/index.php/login>
- Library system VTLS/VIRTUA <https://www.jfmed.uniba.sk/en/departments/information-workplaces/kniznica/>
- Central personal database

- Backup systems
- Camera surveillance systems
- Suite of software products for computer systems management (ZEN works, TeamViewer)
- Systems for network print and network services
- Science and research-related systems and technologies (PACS, SYNGOVIA)
- Systems for entrance exams

Information systems services: E-mail and Office365 – all JFM CU employees and students with mailbox capacity of 50 GB. Office365 is a cloud service provided by the Microsoft Corporation. It offers e-mail, calendar, communication tools and online version of office package Office. Thanks to Office365 account, students and teachers have an opportunity to download and use supplement services of Microsoft, such as download and install the Office package. The address is in the form *univerzitnylogin@uniba.sk*. For employees also in the form *name.surname@uniba.sk*, *name.lastname@jfm.uniba.sk* and *surname@jfm.uniba.sk*. The address and mailbox will remain with them even after the end of employment or study. The official e-mail communication of the university, messages from the AIS system or from the university's e-learning system are delivered to this mailbox. Information on how to access the mailbox or how to redirect it to another address can be found at <https://moja.uniba.sk/?lang=en> (University E-mail Office 365). Automatic and optimized mailing lists and groups are created for the purpose of mass mailing to department heads, teachers, researchers, PhD students and students. In addition to e-mail, other services are available that simplify document handling and support group collaboration such as SharePoint for file sharing within the UC, OneDrive - 5TB document cloud storage per user, MS Teams for distance learning and online communication, Office 365 online (Word, Excel, PowerPoint, Access, etc.), and Office 365 offline.

Faculty website: The website <https://www.jfmed.uniba.sk/en/> uses the university-wide CMS Typo3 to create the faculty's website and its workplaces. Each workplace has a web editor who updates the relevant pages online. JFM CU was the first faculty of CU to use a new web interface. Department of information technology participates in the technical implementation and administration of websites for feedback, surveys and conferences organized by individual departments of the faculty. For the needs of a more attractive presentation of the JFM CU environment, a virtual tour of the premises was created <https://www.jfmed.uniba.sk/en/virtual-tour>. Department of information technology also participates in the technical implementation and administration of websites for feedback, surveys and conferences organized by individual departments of the faculty. For better presentation and communication to the public, applicants and students. Other important specific websites related to JFM CU include:

- JFM CU and PRESS: <https://www.jfmed.uniba.sk/press/>
- JFM CU promotional videos and application process: <https://www.jfmed.uniba.sk/en/study/applicants/application-process/>

c) Characteristics and extent of distance education applied in the study programme with the assignment to courses. Access, manuals of e-learning portals. Procedures for the transition from contact teaching to distance learning.

The JFM CU has been paying special attention to the issue of e-learning for a long time. During the COVID-19 pandemic the teaching has been delivered remotely. The activities of the JFM CU in the field of e-learning are divided into the following areas:

- Electronic creation and distribution of teaching materials
- Videoconferences <https://www.jfmed.uniba.sk/en/departments/information-workplaces/department-of-information-technology/it-services/videoconferences>
- Distance education <https://www.jfmed.uniba.sk/distance-vzdelavanie/>

Videoconferencing systems are used for online live transmissions of surgeries to the auditorium for students, doctors and PhD students within the e-learning education system. The use of videoconferencing equipment enables the online transmission of demanding surgical interventions to the premises where professional events and teaching take place. The faculty also has a new Cisco Telepresence facility. These devices are used not only for e-learning, but also for the transmission of training and video conferencing meetings with the CU management. The transfer of training and meetings has a direct economic benefit in reducing the need to traveling to Bratislava. The videoconferencing system was expanded with a new state-of-the-art TP20 Cisco IX5000 device at the JFM CU Dean's Office. Telepresence room serves for effective and multipurpose communication <https://www.tp.cvtisr.sk/>. It is also used for online transmissions of trainings and meetings from RUK in Bratislava and for connections via other video conferencing programs - such as a display unit for Skype, Google Meet, Zoom, Microsoft Teams and others - thus providing comfortable communication thanks to three large screens. It also proved successful in connections within domestic and international scientific conferences and especially in state examinations carried out in the distance form, which had to be carried out in connection with security measures associated with the worsened epidemiological situation (coronavirus COVID-19). All videoconferencing facilities are used to increase the quality of education, intensify national and international cooperation and communication with the world, online mediation of conferences, special diagnostic and therapeutic procedures with the possibility of consultations. The faculty also has a unique 3D video conferencing system.

Distance education (including distance exams) is implemented at the faculty mainly through the Microsoft Teams program. In cooperation with CU, a manual was developed, which is published on the faculty website <https://www.jfmed.uniba.sk/en/departments/information-workplaces/department-of-information-technology/it-services/online-komunikacia>. Department of information technology provide 24/7 technical support. Distance learning is constantly being improved and enriched with new elements by connecting software and hardware (connecting an electron microscope or ultrasound to live online learning via Microsoft Teams). We also use the above technique in the organization of webinars <https://webinarjlfuk.sk>. To improve distance learning, the faculty also uses a digitization. This offers the ability to digitize existing X-rays and other medical images into the

full medical DICOM format, and subsequent processing on the HIPAX desktop system. Digitized images are stored on an external medium, burned to a CD / DVD, or transferred to another PACS system. In addition, the faculty has the possibility of large format printing and scanning - printing posters in high quality in A0 format. The faculty has at its disposal a high-capacity device (Book Digitizer and Script ScanRobot TREVENTUS) enabling digitization of books and scripts in cooperation with OCR software and publishing on the web using FlipViewer Xpress Creator. At present, narrow-profile publications, which are of the greatest interest among students in the library, are being digitized. The Electronic Books Portal system and Adobe Connect are intended for the distribution of digitized materials.

E-learning web portals: The Faculty is a founding member of the MEFANET network (association of Czech and other Slovak medical faculties <https://www.mefanet.cz/index-en.php>). The MEFANET portal at the JFM CU has more than 2,450 registered users and contains more than 445 medical articles. The faculty portal <https://portal.ifmed.uniba.sk/index-en.php> is integrated into the MEFANET system. The content of the pedagogical works is published in a form that corresponds to the scripts published in print (most often in PDF format). Works recognized by the editorial board of JLF UK are marked with the logo on the portal. Furthermore, the content of the portal includes multimedia teaching aids, which are either physically located on the JFM CU portal, or there is a link to them. Teachers can also make sound lectures available to their students <https://portal.ifmed.uniba.sk/index-en.php>. The pedagogical staff and students of the faculty use the e-learning server MOODLE to create e-learning courses and online testing. Some e-learning courses are used for electronic online testing of students, but there are also comprehensive courses that students can use for self-study. For users of e-learning systems, the e-learning portal JFM CU was created <https://e-learning.ifmed.uniba.sk/en-index.php>, which contains, among other things, manuals for individual e-learning web portals. To support teaching, various teaching websites, portals, web multimedia textbooks, e-books are also being created at our faculty. The above services are concentrated and available from the unified distance education portal. The portal is divided into six sections: e-learning, e-testing, external information sources, online communication, publishing platforms, online simulation simulators and virtual patients. Each of these sections contains a list of available software, a brief description of what each software allows, available links, manuals, tutorials, FAQs and, of course, the contact person to support the software.

- d) Institution partners in providing educational activities for the study programme and the characteristics of their participation. The main specialised teaching facilities include: Regional Public Health Authority in Martin, and University Hospital in Martin. ŽILPO s. r.o. Žilina is another specialised teaching place. Practical education and summer practice are realised at the Regional Public Health Authority in Martin. In a frame of clinical disciplines, the teaching is provided in clinics and departments of the University Hospital in Martin. Required summer practice is arranged through indefinite period agreements with healthcare facilities according to students' preferences and guarantees recommendations. They are stated on the Faculty webpage and their number is extended each year: <https://www.ifmed.uniba.sk/studium/studenti/organizacia-studia-v-akademickom-roku/organizacia-letnej-praxe/> or directly on: https://www.ifmed.uniba.sk/fileadmin/jlf/Dekanat/studiine-oddelenie/oznamy/zoznam_nemocnic_web.6.pdf. Link – Contract with RÚVZ: [Zmluva s RÚVZ](#). The Faculty has signed memorandum of understanding and cooperation in science, pedagogics and medical-preventive care with Žilina Region (https://www.ifmed.uniba.sk/detail-novinky/back_to_page/jesseniova-lekarska-fakulta-uk/article/podpisali-sme-so-zsk-novu-spolupracu-v-oblasti-zdravotnictva/).
- e) Characteristics of the possibilities for social, cultural, spiritual and social activities. The Faculty offers a wide range of activities and services to students. The Faculty runs two student residences with the capacity of 958 beds. The residence on L. Novomeského street (capacity 781 beds) and the residence on P. O. Hviezdoslavova street (capacity 177 beds) offer accommodation in the style of hotel rooms (double and triple occupancy), apartments and en-suite apartments. All rooms are furnished and have access to Wifi. Both residences also offer laundry facilities and secure bike lockers. There are two parking slots on the compound of L. Novomeského and, nearby, there is a student library with fully equipped study rooms (<https://www.ifmed.uniba.sk/akas/>). Within this residence, there are also two table tennis game rooms, two fitness rooms and two leisure rooms. Outside, there is a sport complex with a running track, a football pitch and tennis courts. The canteen at the L. Novomeského is operational throughout the day, offering breakfasts, lunches and dinners to staff and students. The canteen offers a reduced service during the summer and exam period months. This residence also has a chapel (<https://www.ifmed.uniba.sk/pracoviska/ucelove-pracoviska/vysokoskolsky-internat-a-jedalen/stravovanie/>). The JFM CU Institute of Physical Education is nearby both residences and further offers sport and wellness facilities (<https://www.ifmed.uniba.sk/pracoviska/vedecko-pedagogicke-pracoviska/teoreticke-ustavy/ustav-telesnej-vychovy/novinky/>). JFM CU students are also organized in groups such as the Martin Medical Club that covers a range of activities in specialisms such as public health, development of medical science, scientific and research activities but also looks at areas such as human rights (<https://www.ifmed.uniba.sk/martinsky-klub-medikov/>). Group and charitable events such as the Festival of Medics, The Medics run, ice-hockey tournament called the Martin Stethoscope, MedGames and many more are organized by students every year. Students also take part in international events and competitions and sit on the councils and boards of national and international organizations such as the National Association of Medical Students, The Slovakian Union of Dentistry Students and the International Federation of Medical Students. Moreover, organization committee of the Student Scientific and Professional Activities works at the Faculty coordinating work of interns within undergraduate students and organizes each year the Student Scientific Conference (<https://www.ifmed.uniba.sk/veda/studentska-vedecka-cinnost-svoc/>).
- f) Possibilities and conditions for participation of the study programme students in mobilities and internships (indicating contact details), application instructions, rules for recognition of this education. The Faculty is involved in the Erasmus + initiative and offers the following mobility programs: Erasmus + student mobility – available to all students across the general medicine and nursing study programs. This type of mobility is based on an inter-institutional agreement with partner universities (https://www.ifmed.uniba.sk/fileadmin/jlf/Dekanat/referat-zahranicnych-vztahov/Erasmus_ERASMUS2022/BA_Erasmus_Januar_26.pdf) and the length of stay is between a minimum of three and a maximum of 12 months. Various conditions are attached to student mobility, including:
- Students are unable to interrupt their studies during their Erasmus stay
 - Students must complete and agree a Learning agreement with their home and hosting university
 - Students can only apply for Erasmus places with universities that have inter-institutional agreement with JFMED.
- The application process for the Erasmus + student mobility is open twice a year and is submitted via the Mobility Online platform.

Conditions for being accepted on the programs

The conditions are set in the internal regulation document (https://www.ifmed.uniba.sk/fileadmin/jlf/Dekanat/referat-zahranicnych-vztahov/Erasmus_ERASMUS2021/VP_2021_11_Vyber_studentov_ERASMUS.pdf).

Recognition of completed subjects and credits

Recognition of subjects and credits follows the terms set in the internal document, article 19

Student mobility for Traineeship

Students can join the traineeship mobility at any state of their studies [BA, MA or PhD level] for a minimum of two and a maximum of 12 months. With this type of mobility, the onus on student to find a suitable placement and secure a place. If the content of placement is aligned with the student's study plan, it will be automatically recognized and added to the Diploma supplement document.

Application process

The JFM CU Erasmus Office will announce the start date for submitting the applications. The applications are submitted via the Mobility Online platform and can be submitted throughout the year. Students can submit their application as soon as their placement at the hosting institution is confirmed.

Erasmus + mobility for graduates

JFM CU students can also apply for Erasmus + mobility for graduates, once they have completed their studies. This type of mobility is financed by the EU from Erasmus + program grants and lasts a minimum of two and a maximum of 12 months. This mobility is delivered in partnership with WorkSpace Europe (www.workspaceeurope.sk) and can be completed within the 12 month-period after graduating. Contacts

Assoc. Prof. Martin Janík, M.D., PhD. – Vice-Dean and Erasmus+ co-ordinator, martin.janik@uniba.sk

PhDr. Katarína Murčeková – Erasmus+ administrator (katarina.murcekova@uniba.sk).

9. Required abilities and admission requirements for the study programme applicants

a) Required abilities and necessary admission requirements.

The basic condition for admission to the Master's Degree Public Health full-time study program includes successful competing of the 1st degree Public Health study program.

Moreover, an applicant should successfully pass entrance exams. Criterion of admission for the study at the JFM CU is based on ranking list according to gained score in written test (number of points). Those applicants undergoing exam being ranked among planned number of accepted students are admitted. The JFM CU reserves right to waive entrance exam in reasoned situations and to admit all applicants.

Condition for admission are annually approved by the Academic Senate JFM CU in accordance with the Act. No. 131/2022 Coll. and Internal Regulation of the Comenius University No. 4/2021 (https://uniba.sk/fileadmin/ruk/legislativa/2021/Vp_2021_04.pdf) and Internal Regulation of the JFM CU No. 23/2021

(https://www.ifmed.uniba.sk/fileadmin/jlf/Dekanat/Sekretariat/Legislativa/Rok_2021/VP_2021_23_podmienky_prijatia_JLFUK_2022_2023.pdf) and released at the Faculty website (<https://www.ifmed.uniba.sk/studium/uchadzaci/prijimacie-konanie/>).

b) Admission procedures.

Condition for admission together with exact instructions on entrance exam as other condition for admission are published at the Faculty website (<https://www.ifmed.uniba.sk/studium/uchadzaci/prijimacie-konanie/>) and have been passed by the Academic Senate of the JFM CU as Internal Regulation of the JFM CU No. 23/2021

(https://www.ifmed.uniba.sk/fileadmin/jlf/Dekanat/Sekretariat/Legislativa/Rok_2021/VP_2021_23_podmienky_prijatia_JLFUK_2022_2023.pdf).

These condition are re-evaluated each year during the session of the Study Program Council, Faculty Management as well as Academic Senate of the JFM CU. They are in accordance with the Internal Regulation of the Comenius University No. 4/2021 (https://uniba.sk/fileadmin/ruk/legislativa/2021/Vp_2021_04.pdf)

c) Results of the admission process over the last period.

Overview on registered, admitted and enrolled applicants for entrance exams in academic years 2011/2012 – 2021/2022 in study program Public Health – full time study, Master's Degree

academic year	registered	admitted	enrolled
2011/2012	15	14	13
2012/2013	28	23	23
2013/2014	18	18	18
2014/2015	35	20	20
2015/2016	24	15	13
2016/2017	19	18	18
2017/2018	13	12	12
2018/2019	9	9	8
2019/2020	N/A	N/A	N/A
2020/2021	5	5	5
2021/2022	9	9	9

10. Feedback on the quality of provided education

a) Procedures for monitoring and evaluating students' opinions on the study programme quality.

Quality of a pedagogic process in Public Health study program is evaluated each year in accordance with Act No. 131/2002 Coll. as a students' feedback. Several ways of students' feedback are realised at the JFM CU in parallel:

- Assessment at the teaching unit in the form of feedback (student questionnaire) collected the head of the clinic/department
- Assessment of teaching of individual subjects by students completing anonymous feedback (<https://www.ifmed.uniba.sk/studium/studenti/hodnotenie-predmetov-a-vyucovacieho-procesu-studentmi/>)
- Graduates feedback <https://www.ifmed.uniba.sk/studium/studenti/absolventska-spaetna-vaezba/>
- Students can also submit their feedback, comments and recommendations directly to Vice-Dean via the online form or printed sheets located at the various points around the Faculty.

The student feedback is processed at regular intervals and discussed at various management and committee meetings.

- b) Results of student feedback and related measures to improve the study programme quality.
The student feedback results – the assessment of teachers and subjects – are collated after each semester and the summarized report is shared with every head of the clinic/department and/or the subject guarantee with the view to incorporate the comment into improving the quality of teaching and subjects.
The feedback (qualitative data and indicators) are also published online (<https://www.ifmed.uniba.sk/studium/studenti/hodnotenie-predmetov-a-vyucovacieho-procesu-studentmi/>) Results and comments of students are annually dealt by the Study Program Council to resolve a standpoint. It is a base to propose measures to improve quality of the study program.
<https://www.ifmed.uniba.sk/studium/uchadzaci/studijne-programy/studijny-program-verejne-zdravotnictvo/>
- c) Results of graduate feedback and related measures to improve the study programme quality.
As part of measuring the quality teaching, the faculty also collects graduate feedback once a year through an electronically distributed questionnaire. After summarizing the results and comments, they discussed at the Study Program Board and management level.
The results of graduate questionnaire surveys are available on the Faculty's website (<http://www.ifmed.uniba.sk/studium/studenti/absolventska-spaetna-vaezba/>)
<https://www.ifmed.uniba.sk/studium/uchadzaci/studijne-programy/studijny-program-verejne-zdravotnictvo/>
