Tuesday 14.15 - 15.45 h - OW - „A“

All lectures will be held remotely via online platforms until further notice.

1. Date: 22. 9. 2020
   Metabolic syndrome.
   Prof. MUDr. P. Galajda, CSc.

2. Date: 6. 10. 2020
   Acute and chronic glomerulonephritis.
   Doc. MUDr. M. Ochodnický, CSc.

3. Date: 20. 10. 2020
   Tubulointerstitial nephritis.
   Doc. MUDr. M. Ochodnický, CSc.

4. Date: 3. 11. 2020
   Chronic renal failure.
   Doc. MUDr. I. Dedinská, PhD.

5. Date: 17. 11. 2020 - sviatok
   Hemodialysis, hemofiltration, hemoperfusion.
   Doc. MUDr. M. Ochodnický, CSc.

6. Date: 1. 12. 2020
   Septic states. The main principles of antibiotic treatment.
   Doc. MUDr. M. Ochodnický, CSc.

7. Date: 15. 12. 2020
   Clinically significant disturbances of intrinsic environment.
   Prof. MUDr. D. Dobrota, CSc.
INTERNAL MEDICINE 5TH YEAR - PRACTICAL TEACHING FOR FOREING STUDENTS

WINTER SEMESTER 2020/2021

Monday - Friday 8.30 - 10.00 h

According to actual epidemiology situation – combined and condensed form at the Department of Internal Medicine I

1.- 2. Date: 14. – 18. 9. 2020 (15. 9. sviatok) PT
Obesity, dyslipidemia and impairment of glucose tolerance. Metabolic syndrome and risk factors of cardiovascular diseases. (Department of Internal medicine 1)

3.- 4. Date: 28. 9. – 2. 10. 2020
Disorders of calcium metabolism. Examinations of patients with acute and chronic glomerulonephritis. (Department of Internal medicine 1)

5.-6. Date: 12. – 16. 10. 2020 Test
Dehydration. Principles of treatment. Examinations of patients with tubulointerstitial nephritis. Functional methods in nephrology. (Department of Internal medicine 1)

7.-8. Date: 26. 10. – 30. 10. 2020
Acute intoxications: diagnosis, differential diagnosis, principles of detoxication therapy. Examinations of patients with chronic renal failure. Uremic syndrome. (Department of Internal medicine 1)

9.-10. Date: 9. – 13. 11. 2020
Indications of acute hedomodialysis and hemoperfusion. Organisation of the hemodialysis unit, examination and care of patients in chronic dialysation programme. Peritoneal dialysis. (Department of Internal medicine 1)

11.-12. Date: 23. – 27. 11. 2020 Test
Principles of antibiotic therapy. Principles of glucocorticoid therapy. Examination of patients with septic states, differential diagnosis of febrile states. (Department of Internal medicine 1)
Disturbances in intrinsic environment - metabolic and mineral dysbalance. Osteoporosis. Examination of patients with bone diseases. *(Department of Internal medicine 1)*

**TO OBTAIN CREDIT FOR 5th YEAR ARE NECESSARY:**

1. **COMPULSORY 12 PRACTICALS**

   a) each student is obliged to attend the practicals ONLY AT the TIME set by the time-schedule of his/hers study group. If a student wants to take part in the practical outside the specified time, he or she needs the approval of the teacher of that specified practical.

   b) Student is OBLIGED TO KNOW THE TOPIC AND THE PROBLEMATICS OF THE ACTUAL PRACTICAL, his / her knowledge can be examined verbally or in writing at the beginning of the practical.

   c) 2 and more ABSENCES CAN BE EXCUSED DURING 14TH WEEK

2. **PASSING each of 2 tests**

   a) The test consists of 10 questions with one correct answer.

   b) Testing will take place within a specified time.

   **Results from two tests**

**Additional conditions resulting from the current epidemiological situation**

1. All lectures will be held remotely via online platforms until further notice.
2. Practical training will take place in a combined form, in the form of seminars in the hospital training rooms and the inpatient part of the clinic at the necessary time. Until further notice, rotation mode of teaching will be implemented in a condensed content.
3. Thorough registration of students in teaching will be required. Students requiring quarantine due to the presence or suspicion of COVID-19 will be excused from the teaching process.
4. The control of students' results will be realized electronically (MOODLE) and will be registered into AIS (according to the given epidemiological situation).
