

STATE RIGOROUS EXAM (SRE)

State rigorous exam consists of two parts: practical and oral.

The day before the oral part of SRE is a practical exam which consists of two parts. The first part includes examination of the patient with medical record processing and dif.dg. analysis, recommendation for examinations and methods of treatment. The second part of the practical exam consists of description of the X-ray image.

Oral part of the exam consists of 3 questions from surgical propedeutics, general surgery and special surgery (urology, orthopedics, traumatology, pediatric surgery, plastic surgery, neurosurgery, anaesthesiology).
