

Slovak Ministry of Health Research Agency (MZ SR)

- **Project MZ SR 2007-54-UK-15**

Molecular mechanisms of airway afferent nerves plasticity in COPD and other inflammatory lung diseases.

Principal Researcher: Prof. Miloš Tatár, MD. PhD.

Duration of the project: 2008-2012

- **Project MZ SR 2007/50-UK-14**

Airway afferent nerve-endings reactivity and HLA genetic predisposition in asthmatic children.

Principal Researcher: Assoc. Prof. Renata Péčová, MD. PhD.

Duration of the project: 2008-2012

- **Project MZ SR 2012/33-UKMA-10**

Changes of airway reactivity in esophageal allergic inflammation mediated by vagal afferent fibres neuromodulation.

Principal Researcher: Prof. Miloš Tatár, MD. PhD.

Duration of the project: 2014-2016
