

XXXIII. ŠVK Martin 2012

Tomaš Buday, Eva Lichnerova: **Bidirectional modulation of the cough reflex by nasal TRPA1 vs TRPM8 relevant challenges.**

Anders Haugvad: **The effect of alcohol intake on recovery time after heavy resistance exercise.**

Maria Hrubošova: **Molecular markers for positive identification of vagal low threshold A-fiber mechanosensors by single cell RT-PCR.**

Eva Lichnerova, Tomaš Buday: **TRPA1 nasal agonists challenges – effects on nasal symptoms, cough and specific airway resistance.**

Alexander Sverstad: **Selective visualization of pain-mediating nerve terminals in the esophagus by transgene expression.**

Izabela Žitnakova: **Modulation of esophageal vagal afferent nerves sensitivity via adenosine A2a receptors.**
