CCTV Monitoring

Dormitory premises are monitored by a camera system (CCTV). This is considered processing of your personal data. Such processing is permitted by Article 6(1)(f) of the GDPR, which allows us to process your personal data due to the existence of a legitimate interest of CU in such processing, which outweighs your right to privacy. This legitimate interest, and simultaneously the purpose of processing your personal data, is the protection of property, order, and security. Monitored areas include the entrance to Building VI, turnstiles, the lobby of Building VI, the parking lot in front of the main entrance, the parking lot behind Building VI, and Building VI itself.

When investigating violations of the accommodation rules, we may also use "body cams" worn by dormitory staff. Video recordings are kept for a maximum of 72 hours. Your personal data will be processed by our employees instructed on personal data protection and may be provided to the police and courts.

Access Control to Restricted Areas

You will enter the residential part of the dormitories through turnstiles using an accommodation card. Through the turnstiles, we will process your personal data for the purpose of protecting property, order, and security. The legal basis for processing personal data is Article 6(1)(f) of the GDPR – existence of a legitimate interest of the controller. This legitimate interest is the protection of property, order, and security. Turnstile records are kept for a maximum of the duration of your accommodation.

Inspection of COVID-PASS

In the event of an unfavorable epidemiological situation, you may be requested to present proof of vaccination against COVID-19 or a certificate of a valid negative test for the presence of the SARS-COV-19 virus (hereinafter "COVID-PASS") for the purposes of providing accommodation and catering. In processing personal data from the COVID-PASS, we pursue the fulfillment of an important task in the public interest, which is the protection of public health and contributing to the prevention of the spread of diseases. The legal basis for processing personal data is Article 6(1)(b) and (e) of the GDPR and an exception under Art. 9(2)(g) and (i) of the GDPR regarding

health data. Personal data will be processed for a maximum duration of the unfavorable epidemiological situation as defined by generally binding legal regulations. The provision of personal data is a contractual requirement also resulting from the Accommodation Contract; failure to provide them may result in denial of access to the provider's facilities under Art. III(12) of this contract and may also be sanctioned by a contractual penalty of 79 EUR under Art. IV(4) of the Accommodation Contract.
